Comments

1. She made a hard class fun.
2. She's an awesome teacher. Has a great teaching style as well and knows the subject strongly.
3. Dr. Kellogg is a great teacher. I've never taken a physics course prior to this one, and I learned the subject matter well. Her notes were great and she was always willing to help outside of class.
4. This was one of my favorite classes. Dr. Kellogg is one of the best teachers I have ever had. She teaches with excellence!
5. The pace was fast, but the professor was exceptional at conveying the concepts that we covered. I learned a lot, and particularly enjoyed the in-class demonstrations of physical phenomena. Highly recommended!
6. Very descriptive diagrams. Helped my understanding) explained subject visually and verbally.) Always willing to have after-class discussions and answer any questions. Very supportive & there if I needed any help! Thank you!
7. Mrs. Kellogg made a change in policy on homework in the middle of the semester. I understand her reasoning, however, I think that making such a change in the middle of a course is unfair to the students.
